ADVICE NOTE

Dear Valued Customer:

Formosa Chemicals & Fibre Corporation (FCFC) will gradually change the packaging of its ABS products starting from June this year, following the acquisition of BIS (Bureau of Indian Standards) certification in India. The current packaging does not feature the BIS logo, but it will be updated to include the BIS logo.

Due to the gradual replacement, there will be two kinds of packaging bags in the market at the same time. After the stock of the old packaging bags is sold out, all of them will be supplied in new woven bags.

It will be notified on the FCFC website at that time(www.fcfc-plastics.com), the schematic diagram of the packaging bag is shown below.

Original: packaging bag

New: packaging bag
