Upgraded Packaging Announcement

Due to our continuing program of product improvement, we are pleased to announce the packaging upgraded. Our Polystyrene resin's packaging will be upgraded from Paper bag (out layer: paper, inner layer PP woven bag) to Plastic bag (out layer and inner layer: PP lamination, middle layer: PP woven bag) step by step. There will be both two kinds of packaging in the market during the period. After Nov. 1, 2019, we will provide all the PS resins with Plastic bag only. (The schedule of each grade's upgraded will be updated in our website: www.fcfc-plastics.com)

(The printing in new packaging is same as original packaging.)
